

210 x 180 mm

The image shows a technical drawing of a sheet with dimensions and fold lines. The sheet is divided into four quadrants by a horizontal and a vertical solid line. Dashed lines indicate fold lines: a vertical line on the left, a horizontal line in the middle, and diagonal lines from the corners to the center. Three rectangular areas are highlighted with pink borders and labeled with dimensions: a large rectangle in the top-left quadrant (210 x 180 mm), a smaller rectangle in the bottom-left quadrant (210 x 40 mm), and a large rectangle in the top-right quadrant (210 x 240 mm).
