

360 x 240 mm

The image shows a technical drawing of a rectangular plate. It consists of two main rectangular sections. The left section is a rectangle with dimensions 360 mm by 240 mm, outlined in magenta. The right section is a larger rectangle with dimensions 360 mm by 275 mm, also outlined in magenta. The drawing is set against a green grid. Dashed green lines indicate the alignment and extension of the rectangles. A horizontal dashed line connects the top-right corner of the 360 x 240 mm rectangle to the top-left corner of the 360 x 275 mm rectangle. Vertical dashed lines extend from the top corners of both rectangles down to a horizontal dashed line that is 25 mm above the bottom edge of the drawing. Diagonal dashed lines are drawn from the bottom-left and bottom-right corners of the drawing to the intersection of the vertical and horizontal dashed lines, forming a trapezoidal shape at the bottom.
